DAILY PACIFIC NEWS.

J. WINCHESTER.....EDITOR.

Wednesday, May 15, 1850.

☞ Copies of the "Practice Act" are for sale at the desk. Early calls will be necessary, as but a limited number have been issued.

THE BURNT DISTRICT.—The general enterprise of all our citizens whose interests were affected by the late fire, precludes our giving any distinguishing feature of individual progress; but among those who are re-instated in full blast, we must mention B. F. Davega & Co., on the east side of the square, directly south of the former site of the Empire. They leased the ground, built a store, and for two or three days past, have shone out even more brilliant than formerly. Their show window would compare with the most favorite resorts of fashion in older cities.

We must not forget the new structure of H. Clarkson & Co. of the late "Wright Hall," corner of Kearny and Washington streets, on the square. This firm have leased the corner, and if possible, their saloon is more brilliant than before.

HASTY LEGISLATION.—One feature in the action of the new Council thus far, promises well,—that is—a determination to act deliberately, and only after full and mature consideration. If this shall continue to be a feature of their action we may look with certainty for such municipal regulations and ordinances as the necessities of the city require; and when once they are promulgated, the laws will be known; for then there will exist no excuse for annulling and re-enacting at every successive meeting, as is often the case, until they themselves are completely bewildered by the fog created by their own legislation. Only determine what ought to be done, and then do it once for all: for such time as the exigencies of the city require nothing different. It is a matter of far more consequence to start right, than quick.

NEW WORKS.—Several new and interesting books have been laid upon our table by Messrs. Still and Conner. We have had time but to glance at their contents, but that has been sufficient to insure them a hearty perusal the first stray hour. We subjoin their titles:

"The California and Oregon Trail," by Francis Parkman.

"Wives and Mothers," by Mrs. Daniel.

"Jeremiah Parks," by the same author.

"The Cardinal's Daughter," by Mr. Daniel.

"Helen Jewett," "American Joe Miller," and many other works of interest.

For sale by Still & Conner, at their Bookstore in the St. Francis Hotel.

STATUARY, VASES, &c.—We refer our reader to the sale of Wells & Gower, this day, of a choice assortment of marble and alabaster vases, and beautiful parlor and saloon ornaments. They are of the choicest selection, and are well worthy the notice of all those who wish to adorn places of public reception.

Yesterday afternoon we visited their rooms, paid critical attention to this branch of their sales, and give our unqualified opinion as to the genuine and artistic exhibition their selection presents. There is a centre table and vase which took our attention particularly.

☞ The steamer Isthmus leaves this afternoon for Panama. She carries down one hundred and thirty passengers, with about two hundred thousand dollars of treasure. A much larger amount of gold dust would have gone by the Isthmus were it not that there is some doubt as to whether the policies of insurance effected prior to the arrival of the Isthmus, covered other than shipments by the mail line.

THE MAILS.—In relation to our article of yesterday, Messrs. Aspinwall & Co., through their agent, assure us that we were in error so far as relates to their contract for transporting the Pacific mails. They engaged only to carry a mail once a month, and they declare to have performed their contract.

COUNTERFEIT DOLLARS.—We understand that a large amount of counterfeit new Mexican dollars have made their appearance in this city, and unless closely scrutinized can not be detected. Their weight is considerably less than the genuine.

A CORONER'S INQUEST was held yesterday upon the body of Skelton Dennis, late from New Orleans. He had been in feeble health some time and yesterday engaging in a friendly scuffle, exerted himself too much, and died from its effects.

☞ The steamer Senator, on her trip down on Monday night, broke her crank, and had to anchor outside the shipping in the bay. We understand she is to be thoroughly renovated, and painted, and will resume her trips in a few days.

☞ The name of the gentleman proposed as superintendant of repairs of public buildings, is Robert S. Vancleve, instead of Vanclief.

Extracts from Late Valparaiso Papers.

In Chili nothing of interest had occurred, and the Mercurio was only criticising the want of energy in the general administration of government, and that no inducement was given for the promotion of commerce. They complained that the fine bay of Conception was of no use to the country, because the general restrictions of commerce did not allow any direct exportation from this harbor, in spite of the solicitude of an English house, which possessed rich copper mines in its vicinity. While immense quantities of copper are annually exported from this republic, the groceries of Valparaiso are in the habit of coining lead with their private stamps, because the government does not emit a sufficient quantity of change for the retail business. The discovery of rich gold mines near Valdivia, which appear to have been worked by the "Incas," has given another turn to the emigration from South America.

BRAZIL, FEB. 1, 1850.—The revolutionists of Pernambuco had made a fruitless attempt for the insurrection of the province of Parahiba; but another revolution had broken out in the southern provinces, which would aggravate considerably the position of the country, and complicate the question of La Plata.

The Jornal do Comercio mentions the following abuse committed by the "Rifleman," an English steamer of war, off the cruising ground, whose captain, after having shot by cannon ball the prow of the Brazilian mail steamer "San Sebastian," sent some officers on board of her, who searched for negroes without taking notice of the remarks made by the captain, who appeared in uniform and presented his papers in good order. The behaviour of said English officers was so insulting, that the Brazilian government is going to ask satisfaction, though the captain of the Rifleman made some excuse, when he found out his mistake.

PERU.—At the last elections for the presidency the friends of Gen. Eichenique, who is one of the candidates, have been fighting in the streets of Lima against the partisans of his antagonist, and a great many houses have been plundered and lives lost. The actual president, Gen. Castilla, has been accused of partiality in these elections, but he did his utmost to prevent bloodshed.

A great deal of bribery took place, and as the Echeniquists paid each vote at the rate of 50 cents, the returns showed that at San Lazara one Palacios voted twenty times, worth $10—and at San Sebastian there was no citizen who voted less than four times, and some as much as thirty-eight times.

Yuba City----Gold discovered in the Buttes

By the politeness of the clerk of the steamer El Dorado, we were yesterday put in possession at an early hour, of a letter from our correspondent at Yuba city, from which we learn that that beautifully situated town is steadily increasing in population and trade, as its advantages and facilities become better known to the public. The exceedingly crowded state of our columns, forbids us to make but an extract or two; but we hope, ere long, to have space for all our correspondents, and be able to present a more graphic view of every portion of California than heretofore. Our correspondent says:

"Our town never was in better condition to go ahead than at present. We have established ferry boats above on Feather river, and feel sanguine of realizing the most beneficial results from the increase of trade and travel in consequence. According to the extensive preparations now making, there will be more gold taken out of Feather river alone this season, than from the whole of California during the last. Nearly the whole river and its branches are claimed by companies who have made preparations on a large scale for making dams on the new French method, which is by filling sand bags, made of drilling, about one yard square. This makes a good dam with a tenth part of the expense of the old method, and time of digging a race.

"There will be a heavy trade between these up river towns and the mines, when the water gets down so that operations can be commenced by the miners. A steady stream of emigration is also setting in for the Trinity, which must pass through this place as it is much the best route and saves a crossing of the Yuba by taking our lower ferry near the El Dorado landing. Formerly teams were obliged to cross the Yuba, and then come down and cross the Feather river at our upper landing, just above the mouth of the former.

"An important discovery has just been made, which must prove of great advantage to our city. A few days ago, Mr. Rex, made an excursion to the *Buttes*, distant 12 miles from this place, over one of the most lovely and fertile plains in the whole Sacramento valley. While there, he came upon a party of Oregon men who we quietly located in the mountains, and engaged in mining. We already knew that there was gold in these singular mountains, but supposed it existed only in small quantities; but it would seem, from the fact that these shrewd Oregonians were hid away there, that it must be much more plentiful than heretofore supposed. Should this supposition prove correct, it will give a remarkable impetus to the growth of Yuba City, as from here the road is over a dry, level plain, to the *Buttes*, while on the Sacramento side is a tule swamp. I will next week give you some other interesting particulars touching this region." G.

☞ A mass of gold and quartz weighing 50 pounds was found near Mariposa and sold for sixteen hundred dollars.

Trade with China.

The following report was made to the English Parliament by the British Consul stationed at Canton, and has reference *only* to the commerce of that one port. In addition to the facts, which are interesting in themselves, they become peculiarly so to the citizens of San Francisco, since all this vast amount of commerce, as well as all Eastern Asia, so far as the United States and the rest of Europe are its recipients, is destined in a few years to pass through this city as its avenue of distribution.

The statistics are of the years 1847 and 1848

"The number of vessels arriving at that port during 1847 were 312—tonnage 125,926—of which 221 vessels were under British colors, 69 under American, and the rest belonging to 13 minor nations. The arrivals in 1848 were 261 vessels, tonnage 110,242, of which 171 were under British colors, 67 under American, and the rest belonged to various nations.

The imports into Canton in British vessels in 1847 were of the value of $9,625,760, or £2,085,581—and in 1848 of the value of only $6,634,597, or £1,234,147.

The exports in 1847 represented a value of $15,721,940, or £3,406,402—and in 1848 of only $8,633,033, or £1,766,661. The additional amount of exports, compared with imports, is balanced by the imports of opium.

EXPORT OF TEA.—The amount of tea exported from Canton in 1847 was 72,932,631 pounds, of which 43,800,000 pounds were shipped to Great Britain and Ireland, 20,400,000 pounds to the United States, 11,968 to the Hawaiian Islands, and the remainder to different portions of Europe and to Australia.

The Steamer Chesapeake.

MR. EDITOR—

From Judge Thornton's work on California a very favorable impression has been received on the other side of the Rocky Mountains with regard to the beneficence and humanity of the citizens of San Francisco. When Mr. Eddy's party were suffering in the mountains, the citizens of this place gladly contributed a considerable sum of money, and immediately dispatched aid to them. The same kind of feeling which prompted this noble act induced you on Saturday last to express sympathy for the 350 persons who left Panama, in the steamer Chesapeake, more than 100 days since. You kindly suggested that if they still survived they were probably greatly suffering from disease and want, and desired to know if something could not be done to render them assistance. Many anxious persons in this city, who have children and dear friends on board of this ill-starred propeller, desire a thousand times to thank you for your kindness. And may they not hope that your humane suggestions may soon result in bringing some tidings of the Chesapeake?

These friends, and the community in general, have been greatly shocked to find that the *Alta California* of this morning attempts to ridicule and sneer at the sufferings of these persons, and the questions asked with regard to the practicability of affording them relief. Public indignation has been aroused against such an outrage, and it justly merits the condemnation of every one who has the heart of a man. PHILANTHROPOS.

Communicated.

SAN FRANCISCO, April 14th.

MR. EDITOR, SIR—In perusing your columns of this morning I was struck with the singular proceedings of our City Council on Monday evening last. Every one interested in the growth and prosperity of our city has looked forward with anxiety to the time when our corporate rights should be defined by legislative enactments, and the anomalous state of things existing be done away by the provision of proper officers whose duties would be so clearly defined that "a wayfaring man, though a fool, could not err therein." The uncertainty of the law regulating the powers and duties of our municipal officers, together with the actual wants of the city, justified the people in throwing the mantle of charity over many of the acts of these officers, and the law of necessity justified or palliated their course. But with our present charter to guide them, every one indulged the hope, that a body of men supposed at least to be actuated by common honesty would be able to attend to the duties of their office and the wants of the city without trampling under foot the law, drawing political prejudices and feelings into these deliberations and outraging every feeling of manhood and delicacy. Not that I mean to say that every member of the Council is guilty of these charges, but I appeal to every dispassionate man who has read the proceedings of the Council, at their last meeting, to say whether he was not astonished at the unwarrantable course pursued and persisted in by that body. The resolution giving to the two Boards, on joint ballot, the right to fill all vacancies which may occur in either Board by death, resignation or otherwise, is a flagrant usurpage of power for the purpose of furthering private interest and perpetuating Whig ascendancy in the Council, and was never intended, either by the framers of our charter or those who elected the officers under it. All the objections to the old Council that its proceedings were hid from the people, will be fully realized in the new, and tax payers and persons interested in the prosperity of the city, cannot now return a member to either Board for the purpose of representing their interest. These self-constituted censors of the public have once passed through the ordeal of the ballot box, and fearing the consequences which may result to some of their aspiring friends, have determined that it is not good always to have elections, and that they are more fit to judge who should make laws than the people. Hedged around with this bulwark they will take care that none but those who can be made pliant tools and and who can be trusted with their secrets shall be admitted participators in their conclaves, and one by one as they grow fat on public spoils they will leave the bustle of political life and give place to hungry friends and whippers in, who are clamoring for their share of the loaves and fishes. I look upon that part of the charter which gives to the Council the right to regulate vacancies by ordinance, as nothing more than giving them the right to say how, where and when these officers shall be elected by the people; but that they should be allowed to foist upon us men to make laws for our municipal government and regulation, is too absurd and monstrous to be supposed even for a moment. By this action we have been deprived of the dearest right of freemen, that of voting for our own legislators, and the power is placed in the hands of those who may have no interest or sympathy in common with the great mass of the people. With regard to the action of the Board of Aldermen on the question of the contested seat of one of the members of that body—it is prescribed by the charter that the Council shall have power to determine contested elections, and to judge of the qualifications of their own members. So far they are constituted a judicial tribunal, but in such decisions as they are entitled to make, like every court they are bound to conform to the law, and if such member was ineligible according to the provisions of the law creating the office of Alderman, there was but one duty for the Council to perform, and that was to declare the seat vacant. But in deciding this question courtesy at least required that they should make known to their constituents the grounds upon which it was based. By what rules the body is governed when a member is allowed to vote on the question of his own eligibility is a question worth enquiring, and by what scale the same member measures other's conduct in publicly charging an officer with taking convicts and foreigners to the polls, when he himself has not been a resident of the State six months, and retains his seat in the Council by his own *modest* vote, is a question which he alone can answer. Quere—whether an ordinance passed by said member's vote would legal?

TAX PAYER.

A SMART WOMAN.—The *Grove Hill* (Ala.) Recorder, states that in the county of Choctaw, a new one created at the recent session of the Alabama Legislature, a woman was charged with murdering her husband, and employed a legal gentleman, whose name it is not necessary to mention, to defend her, promising him two negroes, as a fee. He undertook her defence, and contrary to the expectation of all, she was acquitted; he called upon her for the two negroes, when she gravely informed him that the negroes belonged to her daughter. Not relishing the idea of being cheated out of the negroes, he instituted a suit against her for perjury, which she defended and mulcted him for the cost. In a short time, she gave birth to an illegitimate child, made oath that the was he father, and compelled him to enter into bonds for its support and maintenance, according to the statute in such cases, made and provided.

AN ACT

FOR THE BETTER REGULATION OF THE MINES AND THE GOVERNMENT OF FOREIGN MINERS.

The People of the State of California, represented in Senate and Assembly, do enact as follows:

Sec. 1. No person who is not a native or naturalized citizen of the United States, or who may not have become a citizen under the treaty of Guadaloupe Hidalgo, (all native California Indians excepted,) shall be permitted to mine in any part of this State, without having first obtained a license so to do according to the provisions of this Act.

Sec. 2. The Governor shall appoint a Collector of licenses to foreign miners for each of the mining counties, and for the county of San Francisco, who, before entering upon the duties of his office, shall take the oath required by the Constitution, and shall give his bond to the State with at least two good and sufficient sureties, conditioned for the faithful performance of his official duties, which bond shall be approved by the Governor and filed in the office of the Secretary of State.

Sec. 3. Each Collector of licenses to foreign miners shall be commissioned by the Governor.

Sec. 4. It shall be the duty of the Comptroller to cause to be printed or engraved a sufficient number of licenses, which shall be numbered consecutively, and shall be in form following, to wit:

"Number , (Date.) A. B., a citizen of , age years, complexion , is hereby licensed to work in the mines of California for the period of thirty days."

The Comptroller shall countersign each of such licenses, and shall transfer them to the Treasurer, keeping an account of the number so transferred.

Sec 5. The Treasurer shall sign and deliver to each Collector of licenses to foreign miners so many of the licenses mentioned in the preceding section as he shall deem proper, and shall take his receipt for the same and charge him therewith. Such Collector and his sureties shall be liable upon his bond for the number so furnished him, either for their return or the amount for which they may be sold; and the moneys collected, as herein provided, shall be paid into the treasury as prescribed in this Act.

Sec. 6. Every person required by the first section of this Act to obtain a license to mine, shall apply to the Collector of licenses to foreign miners and take out a license to mine, for which he shall pay the sum of twenty dollars per month; and such foreigners may from time to time take out a new license, at the same rate per month, until the Governor shall issue his proclamation announcing the passage of a law by Congess, regulating the mines of precious metals in this State.

Sec. 7. If any such foreigner or foreigners shall refuse or neglect to take out such license by the second Monday of May next, it shall be the duty of the Collector of licenses to foreign miners of the county in which such foreigner or foreigners shall be, to furnish his or their names to the Sheriff of the county, or to any Deputy Sheriff, whose duty it shall be to summon a *posse* of American citizens, and, if necessary, forcibly prevent him or them from continuing such mining operations.

Sec. 8. Should such foreigner or foreigners, after having been stopped by a Sheiff or Deputy Sheriff from mining in one place, seek a new location and continue such mining operations, it shall be deemed a misdemeanor, for which such offender or offenders shall be arrested as for a misdemeanor, and he or they shall be imprisoned for a term not exceeding three months, and fined not more than one thousand dollars.

Sec. 9 Any foreigner who may obtain a license in conformity with the provisions of this Act, shall be allowed to work the mines anywhere in this State, under the same regulations as citizens of the United States.

Sec. 10. It shall be the duty of each Collector of licenses to foreign miners to keep a full and complete register of the names and description of all foreigners taking out licenses, and a synopsis of all such licenses, to be returned to the Treasurer.

Sec. 11. Each license, when sold, shall be endorsed by the Collector selling or issuing the same, and shall be in no case transferable; and the Collector may retain out of the money received for each licese, the sum of three dollars, which shall be the full amount of his compensation.

Sec. 12. Each Collector of licenses to foreign miners shall, once in every two months, and ofener, if called upon by the Treasurer, proceed to the seat of government, settle with the Treasurer, pay over to that officer all moneys collected from foreigners not before paid over, and account with him for the unsold licenses remaining in his hands.

Sec. 13 If any Collector shall neglect or refuse to perform his duty as herein provided, it shall be the duty of the Comptroller, upon receiving a notice thereof from the Treasurer, to give information thereof to the District Attorney in whose district said officer may have been appointed, who shall bring an action against such Collector and his sureties upon his bond, before any court of competent jurisdiction; and upon recovery had thereon, the said District Attorney shall receive for his services ten per cent. upon the amount collected, the balance to be paid by him into the treasury in the manner provided by law for like payments.

Sec. 14. It shall be the duty of the Governor, so soon as he shall have been officially informed of the passage of a law by the United States Congress, assuming the control of the mines of the State, to issue his proclamation, requiring all Collectors of licenses to foreign miners to stop the issuing of licenses.

Sec. 15. It shall be the duty of the Governor of State, immediately after the passage of this Act, to have two thousand copies each, in English and Spanish, printed and sent to the mining districts for circulation among the miners, and also to have the same published for thirty days in the Pacific News at san Francisco, and in some newspaper at Sacramento City and at Stockton.

JOHN BIGLER,
Speaker of the Assembly
JOHN McDOUGAL,
Lieut. Governor and President of the Senate.

Approved, April 13, 1850.
PETER H. BURNETT.

Office of Secretary of State,
SAN JOSE, April 13, 1850.

I hereby certify that the foregoing is a true copy of an original Act, now on file in this office.
W. VAN VOORHIES,
Secretary of State.

Sacramento Transcript and Stockton Times copy once a week for thirty days, and send all papers containing the same to Secretary of State, San Jose.

LOTS in Crescent City—The subscriber has now his office for the sale of the above lots, at the corner of Sansome and Bush streets, where a description of the property can be seen.

Crescent City is beautifully situated at the head of navigation of the Tuolumne river, upon the principal ferry, *en route* to the rich mines of the south; and is the most eligible point for a speculation, either in the way of trade or lots, in the whole southern placers. The most liberal terms are offered.

EMPIRE CITY.

FOR Sonorian Camp, Wood's Diggings, Sullivan's, Hawkins's and Don Pedro's Bars, head waters of Tuolumne, Mercedes, and Mariposa Rivers; also, to head waters of san Joaquin and King's River. FREIGHT OR PASSAGE TO EMPIRE CITY, TUOLUMNE. DURFEE & TOWNSEND have established a daily line of sailing vessels from san Francisco to the above city, situated on the south-easterly bank of the Tuolumne river, thirty-five miles above its mouth, and are prepared to carry freight or passengers.

This route is the only one which can be really said to extend, by water, to the very gold field. The city stands at the head of navigation on the Tuolumne river, where the low hills of the Sierra Nevada meet the plains of the san Joaquin, and is not only accessable by sufficient water at all seasons of the year, but the roads to the mines, from that point, are good in wet or dry weather. Goods shipped to Empire City, Tuolumne, save from 25 to 60 miles of land carriage over any other depot for that gold region, avoiding soft roads, expensive ferriage, and personal discomfort.

Persons shipping goods, or taking passage, may rely upon promptness in dispatch, speed in transit, and great saving in time and expense.

For freight or passage, apply to messrs. Turner, Fish & co., foot of Jackson street, san Francisco, or to the subscribers, Empire City, Tuolumne. April 29, 1850.
cxxxii tf Durfee & Townsend.

EMPIRE AND CRESCENT CITIES.

THE survey of this town being completed at the head of navigation on the Tuolumne river, and numerous lots sold and houses erected, designed originally to bear the name of Crescent city, the subscribers, owners of lots in said town, learning that a plot of ground on the northwesterly bank of said river, two miles below, surveyed and laid out last year, still insists upon its rights and advantages as a place for a city, have concluded to leave to the town plot alluded to the beautiful name of Cresent city, and adopt one quite as appropriate, if not so beautiful.—Henceforth, therefore, we claim the name of Empire city. The map will be deposited in the proper offices, and the change in name noted.

Empire city stands on the southeasterly bank of the Tuolumne river, and is the only point accessible by water at all seasons, immediately contiguous to the gold fields of Tuolumne, Merced, Mariposa and San Joaquin rivers. It is at the head of navigation on the Tuolumne river, 35 miles from its mouth. Those persons wishing a settlement in the country are desired to visit it, and examine its advantages over any of its competitors. Signed—Philo Durfee, Edwin D. Townsend, Wm. J. Marcy, W. H. NEW DAILY Evening Paper in san Francisco—ROBERT D. FOY proposes to establish a daily newspaper in the city of san Francisco, to be issued every afternoon. The design of the paper will be to afford a reliable medium of information on all subjects of general and local interest; also to give full and accurate commercial and shipping intelligence up to the hour of publication each day. In a commercial community like ours, the utility of an evening paper, that will place the transactions of the day before the public immediately, must be apparent.

While the principal aim will be to give to the patrons of the proposed paper all the advantages of a strictly business publication, it should be understood that on questions of a political character, it will always be found a decided advocate of the principles and measures of the great democratic party of the Union.

The first number will appear on or about the first day of June next.

TERMS—$25 per annum, when delivered to city subscribers at their residences, or $20 when mailed—payable in advance. Advertisements inserted at the usual rates. cxl tf
